This picture is the trade mark of SCOTT'S EMULSION, and is on every bottle of SCOTT'S EMULSION in the World, which now amounts to many millions yearly. This great business has grown to such vast proportions,

First: Because the proprietors have always been most careful in selecting the various ingredients used in its composition, namely, the finest Cod Liver Oil, and the purest Hypophosphites.

Second: Because they have so skillfully combined the various ingredients that the best possible results are obtained by its use.

Third: Because it has made so many sickly, delicate children strong and healthy; given health and rosy cheeks to so many pale, anaemic girls, and healed the lungs and restored to full health, so many thousands in the first stages of Consumption.

A stomachful of undigested food is about as unhealthy a mass as one can well imagine.

What can be done with it? There it stays. It won't digest. It churns up, ferments and decays; becomes poisonous (as all putrid matter does) and causes great pain and deep seated disorders.

In order to change all this, take Shaker Digestive Cordial.

It stops fermentation and decay at once, so that no more poisons are created. It cleans the stomach of poisons already there. It helps to turn the food that remains into healthful nourishment. It strengthens the stomach for the next meal.

Here is the whole philosophy and cure of indigestion in a few words. And what's more, it's all true. Try it. Shaker Digestive Cordial is for sale by druggists, price 10 cents to \$1.00 a bottle.
